

History- World War One

In History, we will be learning about World War One and the famous figure Walter Tull. The children will be exploring what life was like on the Front Line for soldiers and animals, as well as how time was spent for women and children on the Homefront. They will also learn about Remembrance Day.

Computing- Safety and Searching

In computing this half term, we will be exploring Online Safety and Effective Searching using different search engines; following our Purple Mash Programmes Curriculum.

French- Greetings, Birthdays and Feelings

Middle school will be exploring the above themes and learning to pronounce, understand and respond to questions and statements.

Geography- Human and Physical Features

In Geography, we will be exploring Aerial photos and planned perspectives. While understanding how to identify different human and physical features from that perspective.

Design and Technology- Construction

In DT, we will be learning the different types of products used in our homes and commercially, while exploring the types of joints used and practically performing these in the classroom. The Children will also have the chance to plan, create and evaluate their own product using screws, bolts and nuts.

Year 2/3 Autumn 2

Music- Ho Ho Ho

In this unit of music, children will explore different songs and associations with this time of year. The children will learn to listen, answer questions and add rhythm and music to songs.

RE

Middle School will be looking into Islam as another faith. The children will be exploring many Islamic stories and how Muslims learn from them.

PE- Gymnastics

In PE children will be focusing on gymnastics this half term; learning the core aspects of balance, movement, sequencing and jumping.

PSHE

In PSHE we will be looking at right and wrong as well as what bullying is.

English

In English, we will be delving into the features of persuasion and learning to persuade through letter writing. Middle School will also be looking at writing their own structured narratives while looking at the Christmas Story.

Science- Plants

This half term, we will complete our first unit looking at Plants. We will be learning about the requirements plants need for different processes including germination, temperature, growth, survival, light and reproduction.

Maths

In maths, we will be learning how to multiply and divide while developing faster recall with our times tables. The children will be exploring the properties of shapes and solving fraction problems.

How to help your child at home

Reading is so important in every year at school so please continue to read regularly with your child at home and ensure their reading record is signed accordingly.

You can also encourage your children to improve their quick recall of their times tables and number bonds, by practising at home!
